

Crown Limited

Environmental Policy

1. Our Commitment

Crown Limited is committed to making meaningful contributions toward reducing our environmental impact by pursuing sustainable energy, water and waste practices in all of our operations. This commitment is important to the way we do business. Our commitment is consistent with our objective of creating memorable customer experiences and enhancing shareholder value.

2. Our Framework

Crown Limited will develop, implement and promote programs to reduce our environmental footprint, fulfil our obligations and meet the expectations of our stakeholders by:

- Adopting more detailed environment policies and procedures at our operational subsidiaries to give effect to the principles set out in this policy;
- Creating an awareness of the need for change among our employees, customers, contractors and the community;
- Involving our employees and customers in environmental and sustainability programs;
- Partnering with leading experts to learn and adopt new ways of responding to environmental and sustainability challenges;
- Introducing new strategies, technologies, systems, practices, procedures and programs to deliver sustainable reductions in energy and water usage and waste generation; and
- Complying with our legal obligations.

3. Our Behaviour

Crown Limited will:

- Bring leadership and governance to sustainability and environmental practices throughout our business;
- Encourage behaviours that promote a culture of sustainability and conservation in all areas of our business; and
- Play a leadership role in sustainable business practices in the gaming and entertainment industry.

“Crown Limited will build on its record of achievement in environmentally sensitive business practices and lessen the impact of its business on the environment into the future”
